BENEFITS AND DETAILS

KurbX[®] Curbless and Curbed Shower Systems

QUICK & EASY ASSEMBLY

Simple, 3 part screwless drain assembly is self contained.

LIMITED LIFETIME WARRANTY

NO MORTAR REQUIRED

No mortar required for most pan installations.

LUXURY MEETS FUNCTIONALITY

Clean curbless look with precision engineered slopes.

IDEAL FOR MULTIPLE INSTALLATION TYPES

Direct to joists, solid wood substrates, concrete slab and 2nd floor & higher concrete.

CURBLESS OR CURBED

Add a proprietary low profile curb to any curbless KurbX system to create a curbed shower.

- All pan sizes can be cut to any shape or size on site or place them side by side for large showers.
- Structural pans can span 16" OC joists making curbless installs easy and cost effective.
- No thinset required for pan installation on wood substrates.
- No special thin-set or grout required for small mosaic tile installations.
- Ideal installation can be ready for tile the same day.
- Can be installed during rough framing phase of construction.
- Unique, textured pan surface provides superior waterproofing adhesion.
- Centered drains for optimal design orientation making large format installations flawless.
- Self contained drain connection eliminates the need for additional waterproofing or gaskets.
- KurbX is compatible with all in-floor heating systems.
- Highly competitive pricing in both curbed and curbless shower markets.

- Ready to use liquid latex waterproofing and crack prevention membrane specifically formulated for use beneath commercial and residential tile and stone interior and exterior applications. SEELIT Liquid Waterproofing elastomeric properties reduce the risk of substrate cracks transferring to finished tile and stone flooring while providing a continuous moisture barrier for wet areas.

Dry time is typically 1 hr depending on room conditions.

LIMITATIONS: Do not apply to concrete where hydrostatic pressure is present. Do not use as adhesive. Membrane must be covered by finish flooring. Do not use to bridge existing expansion joints. Follow TCNA guidelines for deflection criteria on wood substrate.

USE ON: Use SEELIT® - Liquid Waterproofing on concrete (porous, non porous or light weight), gypcrete, OSB, existing vinyl, epoxy coatings, glazed or unglazed existing tile, natural stone, yerrazzo, PVC, steel, aluminum, stainless steel, adhesive residue, cement backer boards and polystyrene foam.
