

KurbX® - Customizable Structural Shower Pans

✓ CURBED

✓ CURBLESS

✓ DOG WASHING STATIONS

✓ UNDER WATER FED APPLIANCES

KurbX® structural shower pans combine the strength & durability of a traditional mud-set with the versatility of foam.

Product Description

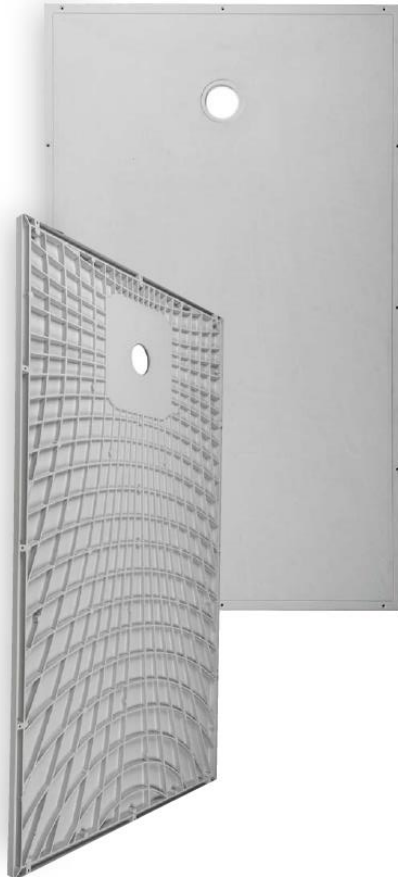

- Proprietary, patented system
- Pre-sloped, structural shower pan that replaces the subfloor to create a curbless shower
- Created from glass reinforced plastic, produced by compression mold
- Cover with any size or style solid surface floor covering

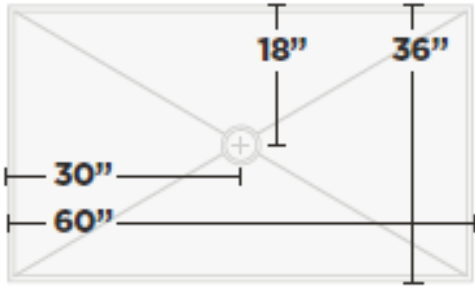

Physical Description

- Thin profile – 15/16" thick at perimeter
- Self supported on 16" O.C. floor joists
- Four precision engineered gradients/slopes
- Centered and tub replacement drain location
- Unique, textured surface
- Ribbed underside
- Pre-drilled screw holes
- Gray in color
- 100% recyclable

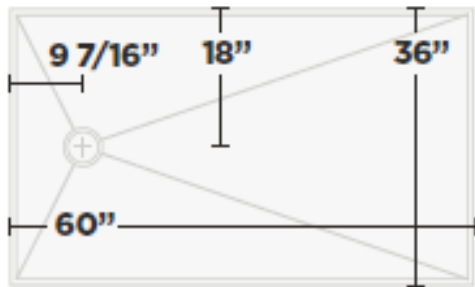

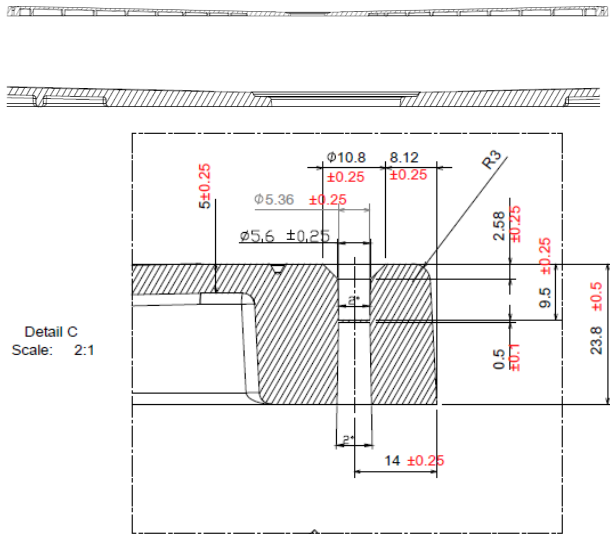

Versatility of Product

- Unique design allows all KurbX pans to be set directly to any substrate
- Thin profile, structural pans can span 16" O.C. joists making curbless installs simple and cost effective
- All pan sizes can be cut to any shape or size on site or placed side by side for large showers
- Unique, textured surface provides superior waterproofing adhesion
- Drains are centered in pan for optimal design orientation making large format installations flawless
- Drain connection to the pan is self contained which removes the need for any additional waterproofing or gaskets
- Structural pans are durable enough to be installed during the rough framing phase of construction and re-useable
- System is compatible with any size or style of solid surface floor covering or heating application
- KurbIT®! Simply add a curb to any KurbX system to create a curbed shower
